

WHAT IS CLAIMED IS:

1. A cleaning tool, comprising:  
a scrubber head having an upper arm, a lower arm, and a connecting member coupling the upper and lower arms; and  
a scrubbing material secured to an inner surface of the scrubber head.
2. The cleaning tool of claim 1, further comprising a handle coupled to the connecting member of the scrubber head.
3. The cleaning tool of claim 1, wherein said scrubber head is generally C-shaped.
4. The cleaning tool of claim 1, wherein the upper arm and the lower arm are not parallel to each other.
5. The cleaning tool of claim 2, wherein the handle is elongated.
6. The cleaning tool of claim 1, wherein the scrubbing material is releasably attached to the inner surface of the scrubber head.
7. The cleaning tool of claim 1, wherein the scrubbing material is releasably attached to the inner surface of the scrubber head by a hook and loop fastener.
8. The cleaning tool of claim 1, further comprising a plurality of bristles coupled to a free end of the lower arm.
9. The cleaning tool of claim 1, wherein the scrubbing material comprises a sponge.
10. The cleaning tool of claim 1, wherein the scrubbing material comprises a scrubbing pad.

11. The cleaning tool of claim 1, wherein the upper arm is longer than the lower arm.

12. The cleaning tool of claim 1, further comprising a plurality of bristles coupled to a free-end of the lower arm.

13. A toilet cleaning tool, comprising:  
a generally C-shaped scrubber head having an inner surface; and  
a scrubbing material releasably attached to the inner surface of the C-shaped scrubber head operable to scrub multiple surfaces of a toilet bowl rim substantially simultaneously.

14. The toilet cleaning tool of claim 13, wherein the scrubbing material comprises an absorbent material.

15. The toilet cleaning tool of claim 13, further comprising an elongated handle coupled to the scrubber head.

16. The toilet cleaning tool of claim 13, wherein the scrubbing material is releasably attached to the inner surface of the scrubber head using a fastener.

17. The toilet cleaning tool of claim 13, wherein the scrubbing material is releasably attached to the inner surface of the scrubber head by a hook and loop fastener.

18. The toilet cleaning tool of claim 13, wherein the generally C-shaped scrubber head comprises an upper arm, a lower arm and a connecting member coupling the upper and lower arms.

19. The toilet cleaning tool of claim 18, further comprising a plurality of bristles coupled to a free end of the lower arm.

20. The toilet cleaning tool of claim 13, wherein the scrubbing material comprises a sponge.

21. The toilet cleaning tool of claim 13, wherein the scrubbing material comprises a scrubbing pad.

22. The toilet cleaning tool of claim 18, wherein the upper arm is longer than the lower arm.

23. A cleaning tool, comprising:

a generally C-shaped scrubber head having an upper arm, a lower arm, and a connecting member coupling the upper and lower arms, the upper arm, lower arm and connecting member having an inner surface;

a scrubbing material releasably attached to the inner surface of the upper arm, lower arm and connecting member; and

an elongated handle coupled to the scrubber head.

24. The cleaning tool of claim 23, further comprising a plurality of short bristles disposed on a free end of the lower arm.
